Peter's Place Professional Development Series

Lectures and discussions on themes related to illness, death, dying, and bereavement

Regardless of specialty, most therapists, counselors, and mental health professionals consistently deal with issues of loss in work with clients. Despite this, many professional training programs do not adequately prepare clinicians to address these themes, and dominant culture does not encourage open communication about death and dying. Peter's Place is a center for grieving children and families located in Radnor, and this series was created to increase discussion and educational opportunities for and among professionals in the areas of illness, dying and bereavement.

NASW-PA Chapter is a co-sponsor of this workshop. 2 CEs will be awarded for completion of this course. NASW has been designated as a pre-approved provider of professional continuing education for social workers (Section 47.36), Marriage and Family Therapists (Section 48.36) and Professional Counselors (Section 49.36) by the PA State Board of Social Workers, Marriage & Family Therapists and Professional Counselors.
